

# Howden logo

This file contains our Howden logo in our eight brand colours. There is no primary colour palette - all eight colours are used equally within the brand. Your Howden contact will help you to determine which colour/s should be used.

## Clear space

Care must be taken to ensure our brand assets are always presented clearly and consistently. A clear space of at least 100% of the height of the 'Part of Howden' mark should be maintained. Always keep the clear space free of any other design elements.

## Minimum size

A minimum size ensures the logo retains legibility and the integrity of the design is not compromised. We suggest a minimum width of 10mm/140px.
